Experience

MakeStudy

Assistant Web Developer

Aug 2025 – Present

Punjab, India

- Developed and maintained web applications using PHP, MySQL, and JavaScript
- Built secure authentication systems and dashboards supporting multiple user roles
- Implemented CRUD operations, improving system efficiency and reducing manual work
- Improved UI responsiveness and optimized application performance
- Integrated frontend with backend for seamless data flow across modules
- Developed OCR-based Passport Auto-Fill system using Tesseract OCR and AWS Cloud
- Automated data extraction from passport images to reduce manual entry effort
- Implemented admin panel features including PDF export, print, and email functionality
- Used AI tools like ChatGPT and Claude for debugging, optimization, and faster development

Projects

CaptionCraft AI (AI Caption Generator)

- Developed AI-based caption generation tool using external APIs and prompt engineering
- Improved output accuracy by refining prompts and optimizing API responses
- Designed modern, responsive UI with focus on clean user experience
- Used AI tools for debugging and faster development workflow

Sky Aura Travel Website

- Designed visually engaging travel website with modern UI and structured layout
- Implemented responsive design for seamless experience across devices
- Focused on user-friendly navigation and clean frontend architecture

Coffee Brand Website

- Developed stylish coffee-themed website with modern layout and smooth UI
- Created visually appealing sections with focus on frontend presentation
- Ensured responsive design and consistent user experience
